

PROGRESS OF THE LEGISLATIVE BODY

CLOSE OF THE SEVENTH WEEK OF LEGISLATURE.

The Anti-Pass Bill in the Hands of the Assembly. Railroad Committee and Likely to Stay There For a Time—No Doubt As to Official State Paper.

Madison, Wis., Feb. 27.—The seventh week of the session of the legislature has closed with but small progress in disposing of the numerous measures introduced. About a dozen bills of minor importance have been passed, and a few more than that number killed. This represents the sum total of the results thus far accomplished aside from the election of a United States senator. There are a number of important bills which have not yet been considered, in committee, and at the rate of progress thus far it would be nearer June than April 1 when the session is concluded. The committees are now getting down to actual work, however, and the practice of holding afternoon or evening sessions so that bills can be reported and placed on the calendar for the next day, has already been introduced and the work will move faster from now on.

The anti-pass bill is in the hands of the assembly railroad committee and is likely to stay there for a while. Not that there is any serious doubt that it will become a law, but there is a question as to whether it will not invalidate passes already issued, and the members who are using them will not let go until they have to, so that the bill is not likely to be enacted into a law until the closing week of the session.

The greatest interest of the past week was the bill to take the official state paper away from Madison and give it to the Evening Wisconsin at Milwaukee. It went to engrossment the third reading in the assembly by a vote of 58 to 25, and there is no shadow of doubt but that it will pass that body. What its fate will be in the senate is uncertain. Its promoters claim that they will have a majority there, but the other side appears just as confident in the opposite view. A combination of circumstances has helped the bill along. One class of its supporters and active lobbyists are a class of the capitol employees who are disgruntled over one or two editorials published by "Uncle Ned" Taylor in the State Journal two years ago, pointing out the saying that could be made to the state by reducing the number and salaries of the capitol force. Then the members who were supporters of Mr. Stephenson in the senatorial contest are helping the Wisconsin lumberman in the senatorial fight. The old feeling that Madison and Dane county have always had too much state patronage also cuts some figure.

The amended medical bill, the feature of which is the provision which was eliminated after a hot fight two years ago, that all physicians, old as well as new, must be registered, this meaning that they must pass an examination before the board, went to a third reading in the assembly by a close vote Friday. Before this was done, however, Mr. Orton secured the passage of an amendment which makes this provision of little effect. Under it the state medical board is required to receive the registration of all reputable physicians who are practicing in the state, before the law went into effect, and as the members of the board are not likely to lay themselves open to suits for slander by calling any of the old doctors disreputable the force of the bill is blunted.

City Treasurer James A. Fathers will act as auctioneer tomorrow morning at 10 o'clock, when he will sell to the highest bidder local real estate on which the owners have failed to pay their annual city taxes.

ALDERMAN GILKEY SUFFERS FROM FIRE

GENERAL STORE DESTROYED AT MOUNTAIN.

A Messenger Yesterday Brought News to the Local City Official—Destroyed Building Partially Insured—Located in the Lumber District Where Fire Facilities Are Poor.

Alderman H. S. Gilkey received a telephone message yesterday, notifying him of the total destruction by fire of a general store at Mountain, Wis., owned by the local lumber firm of Pendleton & Gilkey.

The building is a total wreck, but goods to the amount of several hundred dollars were saved by being taken to a place of safety.

Flames started on the second floor which was occupied as a living apartment by Mr. Gilkey's brother, who had charge of the store.

The conflagration took place early Saturday evening and when the fire was first discovered it was plainly to be seen that there was little use in trying to check it, as the facilities for fighting fires at Mountain are poor.

All present then directed their attention to saving the stock. It was raining at the time and much of the goods after being removed were badly damaged by water.

The stock and building was partially covered by insurance and after this is settled, the local firm estimates that their loss will be in the neighborhood of \$500. Alderman Gilkey stated today that he and Mr. Pendleton had not yet decided as to whether they would rebuild.

Mountain is a small village located in the heart of the lumber district in the northern portion of the state.

They return to the city this evening and tomorrow they visit the well known stock farm of McWay Bros., east of the city, to inspect their pure bred Shorthorn cattle, Clydesdale horses and Shetland ponies.

HANS' FAMOUS GIRL BAND

Brand New Swedish Dialect Comedy. Tomorrow Evening

There is very little that is entirely novel these days, especially in the show business, but Manager Myers thinks he has got something that is a little out of the usual to say the least.

Tomorrow evening, March 28th, will be presented for the first time in this city a brand new Swedish dialect comedy, "Hans Hanson," in which the well known singer and comedian, Mr. James T. McAlpin, will appear in the title role surrounded by a first class New York company.

The novelty of the show, however, is the brass band and orchestra composed of little Italian girls each and every one an artist of the first class. This organization has just arrived from Rome, Italy, and will give a concert tomorrow at noon as well as making an extended parade.

NERVOUS OVER THE MANILA SITUATION

ADMINISTRATION OFFICIAL IS BECOMING UNEASY.

Little Progress in Quelling Rebellion List of Casualties to American Forces Constantly Increasing—Gen. Lawton, When He Arrives, Will Hustle Things Along.

Manila, Feb. 27.—[Special]—A report has been received to the effect that Aguinaldo is preparing to make overtures for peace, and that eight thousand rebels are ready to surrender, was brought here today by two commissioners who went to Malolos under a flag of truce. General Otis did not receive the commissioners. General King is ill with gastritis, and is relieved by General Wheaton. The insurgents have been comparatively inactive the past two weeks. The total loss to American troops since the fire is: Four killed and fifty-nine wounded. Later advices from Iloilo says all is quiet there. The natives, who fled at the landing of Americans, have returned to Iloilo and many are taking the oath of allegiance. The Charleston and Concord are patrolling the island in search of filibusters.

Washington, Feb. 27.—[Special]—The administration officials are becoming nervous over the situation at Manila. Day after day passes with practically no progress in quelling the rebellion. Every day Gen. Otis reports an additional list of casualties and the number of killed and wounded is gradually climbing up into the hundreds. Many experienced army officers claim that the constant attacks of the rebels and sharpshooters will worry our troops to such an extent that they will become reckless. A massacre of a detached company, which may be cut off, would probably follow. It is expected that when General Lawton arrives, he will take personal command in the field and a hustling campaign will be conducted.

Washington, Feb. 27.—[Special]—It is reported here that Aguinaldo has sent a commission to Gen. Otis to arrange to terminate hostilities. Secretary Alger and General Corbin are now in conference with the president on the subject.

Washington, Feb. 27.—[Special]—After the conference Alger and Corbin stated that nothing had been received officially from Gen. Otis. They said the president desired to confer about the transportation of troops to Manila. Gen. Otis has not asked for reinforcements, but if the army bill passes, the president wants to replace volunteers by the 28th regulars.

Manila, Feb. 27.—A battalion of the Twenty-third infantry, under the command of Maj. Goodale, started Sunday on the transport Pennsylvania for Cebu, which was occupied a few days ago by fifty bluejackets from the gunboat Petrel.

There was the usual skirmishing Saturday night. Two men belonging to the Pennsylvania regiment and one each to the Minnesota and Idaho regiments were wounded. A private of the Kansas regiment was killed. Marquina village was burned by insurgents. It is located seven miles from Manila, and communicates with Calvosan by a good road. The village had a population of about 10,000.

LONDON TIMES' OPINION.

Reasons for the German Cruiser's Going to Manila.

London, Feb. 27.—The Times, in an editorial discussion of the Philippine and of cognate matters, prefers to consider the Radziwill interview in the Paris Libre as serious. It says:

"If such expressions were used by a not very wise official it would be regrettable. No doubt the German cruiser has gone to Manila to help the German subjects there, if necessary, and we are reminded that the risk is a serious one by the death of two non-combatants, one a British subject, who had imprudently exposed themselves."

"We are well assured, however, that there is no real separation of American and German interests, but nations are governed as much by sentiment as by logic, and considering the difficulty and magnitude of America's task in the Philippines, it is only fair to ask that mischief-makers should be warned off in time."

DENY FEAR OF FOREIGNERS.

Officials Do Not See Allusion to Interference in Dewey's Message.

Washington, Feb. 27.—The repeated rumors of serious danger of foreign complications at Manila, which began with the receipt of the dispatch from Admiral Dewey urging that the Oregon be sent there "for political reasons," do not find confirmation in official circles. Secretary Alger and Secretary Long said that they knew of no change of the situation in the Philippines, and other officials who would know of any important news from Manila say the same thing. No explanation of the words "for political reasons" has been received from Admiral Dewey and the naval authorities adhere to the belief expressed when the dispatch first came that Dewey did not mean that any immediate danger of foreign complications existed.

GERMANY WILL NOT INTERFERE

That Is Not the Reason Dewey Asked for the Oregon.

SEVERAL WANT PIPES THAWED

To Make the Expense Small the Number Must Be Large.

In the neighborhood of twenty-five persons walked into City Clerk Badger's office today and signified their willingness to stand their part of the expense in case City Electrician Klein sees fit to start thawing out frozen water pipes about the city by means of electricity. She average cost per residence would be between five and seven dollars providing there are seventy-five persons willing to have pipes thawed. This is much cheaper than to stand the expense by the old method of excavating.

COURT OF INQUIRY MET THIS MORNING

GOV. ROOSEVELT HAS BEEN ASKED TO TESTIFY.

Lieut. Dwyer Says Canned Beef Made Him Ill—Brig. Gen. McFeeley Tells How Beef Was Supplied to Western Garrison Up To 1890.

Washington, Feb. 27.—[Special]—The court of inquiry reassembled this morning. Governor Roosevelt has been asked to testify.

Lieutenant Dwyer, of the Ninth infantry, testified that the canned roast beef made him very ill.

Brigadier General McFeeley, retired, testified that the common way of supplying western garrisons up to '90 was by means of cattle on the hoof. This directly contradicted Colonel Woodruff's statement. It also contradicted General Eagan, who said that canned fresh meat was furnished for the purpose of making stew. Brigadier General McFeeley testified that it was furnished and to be used when no means of cooking was at hand.

BELOIT PIONEER DEAD

Quite an Excitement Aroused Among the Faculty of the Beloit College.

Beloit, Wis., Feb. 27.—Michael Haley, an old resident of this city, died Saturday night at his home on South Bridge street. Deceased had been suffering for some time with asthma and his death was not unexpected. Mr. Haley is about 70 years of age. He leaves a wife and six children to mourn his loss; four daughters, Mamie, Katie, Annie and Lydia, two sons, John and Tom. Mr. Haley is well known and has many friends who extend their sympathy to the bereaved family. The funeral will take place from St. Thomas church tomorrow at ten o'clock.

Quite a little excitement has been aroused among the college faculty in this city, owing to an unusual scene at Saturday morning rhetorical exercises. Just as the last bell was ringing Saturday morning two long columns of students filed down the stairs at each side, lock step like a chain gang, each student with a large placard on his or her back numbered in large black letters "A-23," or "B-74," or something similar. They marched in and took their assigned seats. The faculty made a rule that each student must sit each time in a certain assigned seat or be marked absent. The students did not approve of this and so they thought they would have some fun. It is thought that no individual will receive punishment as all the students took part.

Pottery Combine May Fail.

East Liverpool, O., Feb. 27.—Western earthenware manufacturers have almost abandoned faith in the pottery trust project. The subscriptions of stock in the American Pottery company were announced to close in New York on Tuesday last. Since then not a word has been received from the New York people who undertook to float the stock. It is stated that of the \$27,000,000 stock only \$6,000,000 has been taken, \$4,000,000 being cash and \$2,000,000 being taken by the manufacturers in part payment for their plants. The projectors announced last week that if the necessary stock to float the trust was not taken this week they would drop the deal.

The totals are 309,249 bushels of wheat, 605,973 bushels of corn and 219,797 bushels of oats.

TO PREVENT DAMAGE SUITS.

Sand Was Placed Today On Many of the City Walks.

To prevent pedestrians from falling, Street Commissioner Palmer had a force of men about the city today sprinkling fine sand on the walks throughout both the residential and business section. Ice covered the majority of the sidewalks today and to navigate without fear was simply out of the question. Housekeepers say that sand is a bad thing to get out of the carpets after once tracked into the house. Horsemen enjoyed a rush in business today, for to drive a horse with smooth shoes on was a difficult task. Several accidents to man and beast were reported, but none of a serious nature.

New York, Feb. 27.—The relatives and friends of Rudyard Kipling were advised at 5 o'clock this morning to prepare for the worst.

At that time the great writer had been unconscious for at least eight hours, and only the continued use of oxygen allowed him to breathe.

Everything possible is being done, but the latest advice is that all hope has been abandoned save that which remains as long as life itself.

## MOVE IMMIGRANTS FOR WISCONSIN

C. F. J. MOLLER NOW IN DEN-MARK FOR THEM.

Plan to Build a Railroad Which Is To Tap Adams, Wood, Clark and Chippewa Counties—Direct Route From Chicago to West Superior—Other State News.

Milwaukee, Feb. 27.—Information has been received here of the arrival at Copenhagen of Christian F. J. Moller, a former consul for Denmark, and a resident of this city. Mr. Moller is in Europe in the interests of a plan for a settlement of central Wisconsin with immigrants from Sweden, Norway, Holland, Denmark, and Upper Germany. He represents James L. Gates and Julius Jungblut, of this city. It is said that this plan is part of the movement to build a railroad from the southeastern part of Wisconsin to West Superior, for which Congressman J. J. Jenkins is trying to secure a right-of-way through the Court Oreilles Indian reservation.

Mr. Gates is now in the east in the interest of the new railroad. Mr. Jungblut, when seen at his residence yesterday, declined to say anything about the construction of the railroad, other than that he believed the building of it would furnish a direct line from Chicago to West Superior and Duluth.

The line, if built, is to run through Adams, Wood, Clark and Chippewa counties. This is a section from which most of the heavy timber has been removed. Some time ago an effort was made to interest ex-Gov. W. H. Upham and other land owners of the vicinity in the settlement of the land in this section with emigrants, and now Mr. Gates and Mr. Jungblut have taken up the matter independently. They have issued over 20,000 state maps and a quantity of literature based largely upon Prof. W. A. Henry's "Handbook for the Home Seeker," in which the professor, who is dean of agriculture at the University of Wisconsin, gives a good deal of interesting information upon the climate and soil conditions of the state. The land is to be offered for sale in parcels of eighty acres or more at from \$5 to \$10 an acre. It is especially suited for grazing land.

The Union Construction company, recently formed, with Milwaukee men among its officers, and the object of which is said to be to build a railroad, has no connection with the line that is to tap this section, according to the promoters.

### MRS. LUCY GOODWIN

Suffered four years with female troubles. She now writes to Mrs. Pinkham of her complete recovery. Read her letter:

DEAR MRS. PINKHAM:—I wish you to publish what Lydia E. Pinkham's Vegetable Compound, Sanative Wash and Liver Pills have done for me.

I suffered for four years with womb trouble. My doctor said I had falling of the womb. I also suffered with nervous prostration, faint, all-gone feelings, palpitation of the heart, bearing-down sensation and painful menstruation. I could not stand but a few minutes at a time. When I commenced taking your medicine I could not sit up half a day, but before I had used half a bottle I was up and helped about my work.

I have taken three bottles of Lydia E. Pinkham's Vegetable Compound and used one package of Sanative Wash, and am cured of all my troubles. I feel like a new woman. I can do all kinds of housework and feel stronger than I ever did in my life. I now weigh 131½ pounds. Before using your medicine I weighed only 108 pounds.

Surely it is the grandest medicine for weak women that ever was, and my advice to all who are suffering from any female trouble is to try it at once and be well. Your medicine has proven a blessing to me, and I cannot praise it enough.—Mrs. Lucy Goodwin, Holly, W. Va.

takes lots of time. There still remains a vast volume of preliminary that will require perhaps six months to complete. There is no thought of abandoning the work, and a meeting will be called as progress is made. It is said that if this combine is effected this city will be the headquarters of the company, which will be one of the largest concerns in the world, and controlling the cash and door and blind industry. All of the local concerns are included in the scheme.

### OUR SAVIOR'S BEATITUDE

Subject of Sermon Yesterday at Court Street M. E. Church.

Rev. Walter A. Hall spoke yesterday morning to a very attentive audience on the first four of our Savior's beatitudes. He said the "Poor in spirit" meant beggars in spirit. There are two thoughts; that of a real inward humility, not outward or feigned, and that of petition. The beggar is not only humble, but asks: The kingdom of heaven is theirs and as it is a kingdom of kings that become both subjects of the king of kings, and one of the kings of whom Christ is king.

Many would change the second beatitude so that it reads, "Blessed are they that mourn for their sins." But what right has anyone to thus mutilate Christ's own words? It is simply and solely, "Blessed are they that mourn." Blessed is the person who looks through streaming eyes on the coffin face of a loved one. Blessed are they whom saddest disappointment drives to darkest grief. "Blessed are the unblest."

"They shall be comforted. That is of course, if they appropriate the promise. I might starve to death with a hundred dollar check in my pocket. In considering the third beatitude, Mr. Hall said that the word translated, weep, had the idea of gentleness and forbearance both wrapped up in its rather full meaning. The life of calm forbearance flows on smoothly and contentedly. We only have what we enjoy. The meek enjoy more of this world than others. They inherit the earth. Perhaps there is further promise that in larger measure in the grand future of things, God will exalt the meek to splendid kingship on this earth, transformed and glorious. Blessed are they that hunger and thirst after righteousness or rightness. Hunger and thirst is a strong and growing desire, that can only be satisfied by being met. Such desire comes from thinking on Christ and studying the great christian characters.

Mr. Hall spoke in the evening on Louis XIV and Solomon. He drew these lives truly valuable lessons.

### SATURDAY EVENING AT GRAND

"Uncle Josh Spruceby" Pleases a Large Audience.

The night was very stormy and the rain came pouring down. Nevertheless, there was a large audience at Myers Grand last Saturday evening, to witness the down east comedy drama, "Uncle Josh Spruceby" and for a cheap show none were disappointed in the least, and its equal has not been seen in Janesville in many a day. No doubt, many as they were winding their way to the play house through the unpleasantness of the storm that evening were meditating in their minds that they alone were possibly the only persons so foolish as to face the roughness of the weather for a few hours of mirth, but, alas! there were others, in fact, the opera house was crowded to overflowing with those just as foolish.

J. E. Mason, as Uncle Josh Spruceby, an honest old New England farmer, was the possessor of a bewitching smile that oftentimes got the best of him and would appear on the scene where it was little needed, although his character work was good and his specialties were quite laughable, although not all of the latest. His support was good.

The specialties throughout were good. The sawmill scene was excellent and caused many to turn their faces with a shudder. The music was of the best and taking all in all the performance was all and even more than could be expected.

## HE GAVE A FAREWELL DINNER

Joseph A. VanKirk. Proved Himself a Charming Host Saturday Evening.

What proved to be a most delightful function, was given Saturday evening, by Joseph A. VanKirk, at the spacious Milton avenue home of his parents, Capt. and Mrs. W. T. VanKirk.

The event was given as a farewell to the Misses Marcia and Georgia Withington, whose marriage to Henry Glover Martyn of London, England, and N. W. Church of Toledo, Ohio, will be solemnized in this city tomorrow afternoon.

The rooms were beautified by a profusion of cut flowers, which consisted of roses, Easter lilies, and hyacinths intermingled with an abundance of smilax. American and English flags were draped over the hall porties and in the parlors.

The dining room was in equal keeping, the table being prepared to carry out every detail of a violet dinner.

From the chandelier, smilax and violet ribbon found their way to each corner of the table, while at each plate, a cluster of English violets awaited the guests.

Artistic cards, the work of Miss Agnes Shumway, were beside each plate as a souvenir of the occasion, in one corner being sketched in ink, an excellent likeness of Uncle Sam, while in the opposite corner was smiling John Bull.

Mrs. Louise Bowerman, the well caterer, had charge of the repast, which was served in eight courses. She was assisted by Fred Taylor, colored attendant, and a corps of waiters.

Toasts were given by the following: Misses Marcia Withington, Sybil Nash, Georgia Withington, and Helen Nash. Messrs. Frank Wheelock, Joseph Van Kirk, Albert Schaller and William Watt.

A musical program followed and the evening proved one long to be remembered.

Considering the organization and discipline of the American army, it is the opinion of experts that the rule of the Americans in the Philippines will prove a fiasco.

## LATE NEWS BY TELEGRAPH.

## FATE OF THE CANAL BILL.

Nicaragua Project Finds Vigorous Opposition.

## PROLONGED DEBATE FEARED.

In That Case the River and Harbor Bill Will Be in Danger—Compromise Army Law Reasonably Safe—Last Days of This Congress.

Washington, Feb. 27.—Next Saturday at noon the fifty-fifth congress will pass into history, to take its place in the list of the few but notable war congresses of the United States. For the next five and one-half days the efforts of the managers will be devoted to rounding up and completing the work of the congress, so that its accomplishments may stand alone and no unfinished part of them be saddened upon a succeeding congress.

No reasonable doubt seems attached to the passage of the compromise bill to provide an adequate military establishment for the next two years. There are murmurings against it, but these, it is believed, will give way to the pressure of necessity.

More doubt attends the fate of the Nicaragua canal project, carried as an amendment to the river and harbor appropriation bill. There is no question that the amendment will have violent and vigorous opposition in the house. The friends of the canal are afraid of debate. They realize that if the canal project consumes too much time the river and harbor bill will be endangered, because those who are interested in appropriations carried by the measure will be likely to become alarmed for its fate and may join the ranks of the opposition. It is unfortunate that the house leaders who control the committee on rules are not interested in expediting the consideration of the bill and cutting off debate with a rule.

On the other hand there is a consideration of advantage to the bill. If it becomes apparent that the senate will insist upon the canal amendment with defeat of the whole bill as alternative for the amendment's rejection, those who have pork in the barrel may swing into line for the amendment and pass the bill.

The general business of the congress is in unsatisfactory shape, but not impossible of adjustment even in the limited time remaining, if the two subjects of absorbing interest before mentioned do not consume constant attention of the house and senate.

In the house the army appropriation, the fortifications appropriation and the deficiency appropriation remain to be acted upon. Nearly a score of public-building bills are to be passed and sent through the senate, afterward to again run the gauntlet of the house in conference reports. The census bill is in conference, with no agreement reached, but when reported will probably not take up much time. The navy personnel bill is in conference, but will probably not consume much time when reported.

The senate is behind on appropriation bills, but as soon as the army-increase bill is out of the way will probably clear its calendar in short order. The only element of serious doubt in the situation, therefore, seems to be as to the time consumed and the action upon the Nicaragua canal amendment to the river and harbor bill.

## Sundry Civil Bill Changes.

Washington, Feb. 27.—The senate committee on appropriations has completed consideration of the sundry civil bill as passed by the house and reported it to the senate. The most important amendment made is the Butler provision for a cable to Honolulu. Besides providing that the cost of the cable shall not exceed \$2,500,000, the rates or tolls are fixed. For commercial messages it is provided the rate shall not exceed 25 cents a word to Honolulu, and for press messages not more than one-third of that rate. The total increases made by the committee amount to \$4,093,406, the bill as reported to the senate carrying \$44,963,389.

## Mr. Peck Scores a Success.

Washington, Feb. 27.—Ferdinand W. Peck, commissioner-general for the Paris exposition, has been notified by Senator Allison that the senate appropriation committee has decided to give him all the funds he asked for. An additional appropriation will be put in to the civil sundry appropriation bill in the form of an amendment, and the bill will be referred to the senate tomorrow.

## Agree on a Census Measure.

Washington, Feb. 27.—The conferees on the census bill have agreed and will make their report early in the week. Certain features of both the senate and house bills will be retained. The census will be nominally under the direction of the secretary of the interior, but all appointments in the census bureau will be made by the director of the census.

## HEART DISEASE.

SOME FACTS REGARDING THE RAPID INCREASE IN HEART TROUBLES.

Do Not Be Alarmed, But Look For The Cause.

Heart troubles, at least among the Americans, are certainly increasing and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Real organic disease is incurable; but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and Pneumogastric.

In another way, also, the heart is affected by the form of poor digestion, which causes gas and fermentation from half digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action; hence arises palpitation and short breath.

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.

This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that the regular persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble except cancer of the stomach.

Full sized package of these tablets sold by druggists at 50 cents. Little book on stomach troubles mailed free. Address: F. A. Stuart, Co., Marshall Mich.

## Forecast of Illinois Legislature.

Springfield, Ill., Feb. 27.—The business transacted in the legislature this week will be of little interest if the plans of the leaders are carried out. Aside from the final passage of the bill repealing the Allen law the only matters to be taken up will be those concerning which there is little or no contention, the leaders having agreed that this shall be the program for the week. The absence of many of the members of the assembly who have been appointed on committees to visit the various state institutions is responsible for this program, it being deemed inadvisable to attempt the consideration of important legislation while so many members are away.

The dining room of The Mrs. Clark Co., 151-153 Wabash Ave., Chicago, is the best appointed and most modern restaurant in the city. It has been recently refitted, improved and enlarged and has an elaborate menu at moderate prices. It caters to those who demand the best.

The restaurant on the 7th floor of the Association building in La Salle street is also run by this company and is equally inviting and attractive.

## YIELDS RULE OVER RUSSIA.

Czar Nicholas Gives Way to Grand Duke Michael.

## EMPEROR IS SERIOUSLY ILL.

Grave Fear for His Life—His Malady Is of Such a Character as to Forbid Mental Exertion—Sensational Statement Comes from Denmark.

London, Feb. 27.—The Copenhagen correspondent of the Daily Mail says: "Well informed persons here assure me that the health of Emperor Nicholas is far from good and that his condition excites the gravest solicitude. A long-threatened ailment assumed a critical form soon after the issuance of the manifesto in behalf of the limitation of armaments and the czar is now prostrated."

"The malady is of such a character as to forbid all intellectual exertion. His participation in the government is merely formal, confined to signing documents of whose contents he is ignorant. The Grand Duke Michael possesses the executive power and all government decisions are arrived at without the czar's co-operation or knowledge."

London, Feb. 27.—The Daily Chronicle's correspondent in Stockholm says it is rumored here that the Emperor Nicholas is ill and that the Imperial Grand Duke Michael is presiding over the government.

## Dangers of the Grip

The greatest danger from la grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by People's Drug Co., corner Main and Milwaukee streets.

## The Archbishop of Canterbury.

The Archbishop of Canterbury, who has just entered his seventy-eighth year, is physically one of the most remarkable men of the time. His early school days were as rough—well, as those of most school boys of the twenties. They washed themselves, and too frequently each other, at the common pump, fought pitched battles upon provocation lamentably slight; lied freely to the masters, and indemnified their consciences by telling the truth to everybody else with the unswerving honor of English gentlemen. This is no exaggeration, for such is Dr. Temple's own account of the matter. The doctor was born in the Ionian Islands.

## A SURE MEDICINE.

HANDSOM, Va., Dec. 31.  
I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

## Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

## RASPS THE SENTINEL.

The Milwaukee Journal speaks of one of its esteemed contemporaries, under the heading "Doodle Traitor's Agony," as follows:

The Sentinel is not in quest of pap for the simple reason that it cannot get it. Its virtue in this sits awkwardly on its history, yet it is a fairly good virtue for The Sentinel, one of its usual kind. It never takes what it cannot get nor gets what it cannot take. Just now its ability in either direction is very much hampered by various circumstances in its recent history, so it has delight in squirming about in its nest and making itself uncomfortable. In its agony, it turns its eyes on The Journal, into one solace in case of trouble, its own dear black beast. And to enlarge the picture with horror joins it to the Evansville Wisconsin and paints both alike, "pap suckers." My dear Sentinel, your political eyes are astigmatic and afflicted with myopia and strabismus. The Journal is not in the combination. You and the Evening Wisconsin must fight it out by yourselves. You only make yourselves a laughing stock when you join The Wisconsin with The Journal, in any kind of a combination. The Sentinel speaks as follows:

These two Milwaukee papers have made a sorry exhibition of themselves in their quest of pap. What confidence can the public place in public prints that thus put themselves in the hands of the politicians in return for a few thousand dollars' worth of printing? And how poor must their business be when they can no longer obtain sufficient income from legitimate sources of business, but must apply to the legislature for support!

Sour grapes, my friend, contrasted with pleasant recollections of ancient pap and the "doodle book."

The Baraboo common council has directed the city attorney to "procure affidavits and take such action as may be necessary for the forfeiting of the franchise of the Baraboo Waterworks company." The same line of reasoning that applied to Janesville applies to this case. Private property is not easily confiscated, and the person or municipality that seeks to get something for nothing generally gets nothing for something.

La Crosse Chronicle—Members of the Twilight club in Janesville amused themselves Monday night by listening to five minute speeches from four or five professors at the University of Wisconsin, over the long distance telephone. Wouldn't it be cheaper for Bryan to stay at home and deliver his speeches in this way?

The Milwaukee Journal showed considerable forethought when it set out to have a warship christened in honor of the Cream City, in making the specific request that the name be given to "a cruiser." Otherwise, perhaps, the secretary might have thoughtlessly given the cognomen "Milwaukee" to a schooner.

City Electrician Klein is to be congratulated on his success in thawing pipes with electricity. Mr. Klein does not find it necessary to wear a "plug hat," but he knows his business from A. to Z.

The Cubans should remember, while the bouquets are being cast about, that if it had not been for Uncle Sam's hardy sons, General Gomez would still be dwelling in the jungles.

The Milwaukee Journal publishes an editorial entitled "Don't Report Your Failures." The article contains no reference to the attempt to conciliate the gold and silver democrats.

The Spanish war will go down in history as the one in which the fewest Americans were killed, and the greatest number slandered.

The chatter of the generals and admirals on the point of "who did it" recalls the old saying that "still waters run deep."

The most interesting dispatches sent from the state capital these days are written by Dan D. Starkey for The Mil-

waukee Evening Wisconsin, under the heading "Ins and Outs at Madison." Mr. Starkey is unusually well informed, and the thorough master of his profession.

"Stand by the president!" He needs your help! Senator Billygoat Mason has declared war on him.

Admiral Schley has evidently reconsidered his declaration that "there is glory enough for us all."

The Milwaukee Sentinel doesn't want the title of "official state paper." Can anyone guess why?

Of course Admiral Dewey can have the Oregon—and anything else that he may happen to want.

## The Revenue in the Islands.

Washington, Feb. 27.—Assistant Secretary of War Meiklejohn has made public a statement showing the total receipts from customs and taxes received in the several ports in the islands of Cuba and Porto Rico and the Philippines, so far as reports have been received by the war department from the respective dates of occupation of said ports by the military forces of the United States to and including Jan. 31, 1899. In Cuba from July 18, 1898, to Jan. 21, 1899, six ports not reporting for January, \$1,312,372 was received. In the Philippine islands from Aug. 13, 1898, to Dec. 31, 1898, \$1,819,813. In Porto Rico from Aug. 15, 1898, to Dec. 15, 1898, \$2,643,602.

## Bringing Back Soldier Dead.

Washington, Feb. 27.—The funeral ship Roumania, which is engaged in the sacred mission of bringing home the remains of the brave soldiers who lost their lives in Porto Rico and Cuba, has completed its work so far as Porto Rico is concerned. The number of American dead on that island was comparatively small and their disinterment and removal to the transport occupied only about a week's time.

A telegram received by Col. Moore of the quartermaster general's office, says that the Roumania left Ponce yesterday for Santiago, where the principal work of the expedition will be done.

## Wants a Pythian Home.

Laporte, Ind., Feb. 27.—A movement has had its inception here to build a home in this state for indigent members of the Knights of Pythias. A number of cities in northern Indiana will make a bid for its location. The action of the Odd-Fellows in erecting a \$35,000 home at Greensburg and the activity of the Knights of Pythias in a similar movement has awakened interest in a state Masonic home, which if built will be a new century offering, with its location at Indianapolis. Popular subscriptions will be made to build the home.

## Transport in a Typhoon.

San Francisco, Cal., Feb. 27.—The transport steamer Zealandia has arrived from Manila after a rough trip, during which she encountered a typhoon of forty-eight hours' duration which damaged the ship to considerable extent, injured several of the men and nearly foundered the vessel. She brings fifty-six soldiers who were sent home on sick leave, fifty-three discharged or under orders and six prisoners and a guard of ten. Three men died on the voyage.

## No Case Against Hanna.

Washington, Feb. 27.—The senate committee on privileges and elections has decided that there was no case made in the protest against Senator Hanna of Ohio, and ordered such a report made to the senate. Senator Turley of Tennessee reserved the right to make a statement concerning the matter to the senate, though no minority report will be made.

## TRIED TO KILL HER.

Thomas J. Wells, a retired lawyer of Chicago, and about 60 years old, tried to shoot his 23-year-old wife at the St. Nicholas hotel, San Francisco, the other evening, according to the woman's story.

It was in the early part of Sunday evening that Mrs. Wells came screaming down a corridor. "My husband tried to shoot me," she declared. "We have been married only a short time and now he wants to get rid of me." She insisted on having the police notified.

Mrs. Wells, who is an exceedingly beautiful woman, says her marriage was practically a matter of convenience. She was poor, her husband is old and rich. He is very jealous and this caused the trouble. She says her maiden name was Bertha V. Hundley, and that her family lives in Chicago. She says that they were married on the 14th and immediately left for the west. Wells will be arrested unless he returns the clothing and money of his young wife. In Chicago Wells is known to many as "the man with \$50,000 in his belt." He always had a big roll and liked to display it. He is a Mason of high degree. He has practiced law here thirty years and has been considered a quiet, amiable man.

The jury of his peers before which an influential criminal is sometimes tried is largely a jury of his accomplices and accessories.

## Alger May Yet Go to Cuba.

Washington, Feb. 27.—It is reported that Secretary Alger has abandoned his trip to Cuba and Porto Rico, which he was to make on a government transport, with members of the house and senate military committees and other prominent officials as guests. The secretary would not confirm the rumor that the trip had been abandoned.

## AMERICAN TROOPS AT CEBU.

Continued From Page 1.

Berlin correspondent says: "I am in a position to state positively that the dispatch about the American battleship Oregon's being ordered to Manila has nothing whatever to do with Germany's or anybody else's alleged contemplated interference in the Philippines. There is no question whatever of interference there on the part of Germany, nor, indeed, on the part of any other power. The report above referred to is a willful invention. It is assumed here that Admiral Dewey wants to send one or more of his ships away for some purpose or other, and that he has applied for another vessel to replace them in the meanwhile."

## Foreign Seamen Landed.

London, Feb. 27.—A dispatch to the Central News from Madrid says that an official message has been received from Manila stating that the foreign warships there have landed seamen to protect the foreign residents.

Washington, Feb. 27.—The report from Madrid that a message had been received from Manila saying that foreign warships had landed seamen is not credited here. Secretary Alger, who would, of course, be notified immediately by Gen. Otis if anything of the sort had occurred, said when told of the report that he knew nothing of it.

## List of Nine Wounded.

Washington, Feb. 27.—Gen. Otis has sent to the war department a list of nine casualties among the United States troops at Manila. All of these occurred on Friday and Saturday in the trenches near Calococan. It is supposed that they were the result of the desultory firing between the opposing forces. None of those in the list were killed, one was seriously and five severely wounded.

## Dewey Declines to State.

Manila, Feb. 27.—Admiral Dewey declines to state what are the "political reasons" demanding the presence here "at once" of the battleship Oregon. No alarmist construction is placed by those in authority at Manila upon his request to the navy department. No foreign power represented here has shown a menacing attitude.

## Typhoid Appears in Havana.

Havana, Feb. 27.—There are three cases of typhoid fever in the Second division hospital in Maj. Gen. Lee's camp, and there is some fear that the fever may become epidemic.

## MR. BURDICK TELLS ABOUT THE TROUBLE

CIGAR MAKER, FORMERLY EMPLOYED BY MR. SOULMAN.

Thinks An Injustice Has Been Done Himself and The Union and Asks That The Men's Sides Be Published So the People May Be The Judges.

Fred L. Burdick, one of the men employed by John Soulmán, requests The Gazette to publish the following signed statement in justice to himself and the Union:

Editor Gazette:—It is with a great deal of regret that I am obliged to take notice of some undue and uncalled for advertising in the city papers. The matter to which I refer, consists of the articles which have been lately published, setting forth, professing, the trouble existing between Mr. Soulmán and his employees. These articles, either intentionally or otherwise are gross misrepresentations of the Cigarmakers' union and myself personally. As we have been published as being impertinent and narrow minded enough to dictate to Mr. Soulmán as to where he should get shaved, I wish to state that the facts in the case are these:

I was informed by a member of the Trades Council, at a meeting of that body, that Mr. Soulmán, among other people, either unknowingly or otherwise, were patronizing non-union barbershops, and that he had made up his mind to speak to some of these gentlemen about it. This is emphatically the extent to which Mr. Soulmán was "blacklisted." The Council took no action whatever in the matter.

The next evening, after hours, at the Soulmán factory, and in Mr. Soulmán's presence alone, I inquired where he was getting shaved and was told "at Mr. Tiff's." I then asked him if he was aware that the Tiff shop was no longer a union shop. He replied that he was not aware of it but that it made no difference to him and then asked me why I inquired. I told him my reason for inquiring was that being of the opinion that he did not know that he was patronizing a non-union shop, and being aware that his doing so might and probably would lose for us the support of the union barbers, I considered it my duty to tell him these facts for his interest as well as that of his employees. I told him that I mentioned these facts upon my personal responsibility and wished him to regard my conversation as between him and me alone in a spirit of friendship.

The following day, Mr. Whitaker, the member of trades council above referred to, entered Mr. Soulmán's shop while we were at work and called Mr. Soulmán into the office and had a long talk with him, in a tone of voice. Whatever was said by either party was not audible in the next room, with a wide open door between. Soon after Mr. Whitaker had gone, Mr. Soulmán entered the work-room and began immediately to abuse and insult his employees as men, and also the organization to which they belonged, in language that we considered unbecoming a gentleman, and not calculated to look well in print, winding up by stating that he would show us what he cared for us and our union, whereupon he threw into the stove all union labels in his possession. We were told that if we did not like his remarks we might, one and all, walk out to the office and get our wages. He received no reply from anyone in any way whatever, and soon left the shop. At noon of that day the Cigarmakers' local union held a meeting with results as previously printed. When Mr. Soulmán was informed, through the committee, of the union's action, he told us that he would pay no fine, that his men could consider themselves discharged, and that he would run, as he termed it, a "scab shop" in the future. His employees were then paid off and removed their tools from the factory.

Mr. Soulmán for years has been a member of the Cigarmakers' union, and since becoming an employer has held a "retiring card," issued by same, thus being obligated to observe and live up to the rules and regulations of the union as much as are his employees, hence the fine, etc. The case as it now stands, is this:

"We, his employees have been 'locked out' as we certainly think for no just cause. The local union has taken action upon the matter, and placed it in the hands of the International office, where it now rests.

The union labels above referred to, as there seems to be a general misunderstanding on the subject, are the light blue labels, to be seen on every box of union made cigars and are certificates that cigars contained in said box are made by union labor. They are furnished by the union to the employer for the sole purpose of pasting on his cigar boxes and are not given him to do with as he sees fit, as has been stated.

I wish to call attention to the fact that I did not even request Mr. Soulmán to discontinue patronizing any barber shop, and that the other employees at his factory knew nothing about my talk with him until afterwards.

Hoping you will see fit to give this as much attention as the articles before published which reflect discredit upon myself and the union and thereby allow the public, since the affair has been forced upon the public, to decide for itself how much abuse and dictation Mr. Soulmán has suffered at the union's hands and mine, I am yours truly,

FRED L. BURDICK.

## INFORMATION AS TO FROZEN WATER PIPES

FROM PRES. ADAMS OF THE STATE UNIVERSITY.

The President of That Institution of Learning Has Issued a Circular of Information In regard to the Thawing of Frozen Water Pipes.

President C. K. Adams, of the state university, in view of the great inconvenience experienced by people in all sections of the state from the freezing of water pipes has of recent date, issued a circular of information which will be of general interest. He treats the subject as follows:

"In view of the great inconvenience experienced by people in many portions of this state from the freezing of water pipes, it is thought that the following official information may be of service:

"The method of thawing frozen pipes, invented and devised at this University, has been shown by experience to be generally efficacious. The university desires that this method should be of the largest possible service to the people of the state. The process, when it is properly used, is entirely safe and expeditious and permits the thawing to be accomplished without in any way disturbing the streets or lawns.

It is necessary that localities availing themselves of this offer shall have proper sources of power. If it is preferred, a competent instructor will be sent from the College of Engineering to instruct in the operation of the method, this offer being subject, of course to the limitations of our force.

The source of electric power which is required in thawing service pipes should be capable of producing 800 amperes of electric current, with a pressure of from 50 to 60 volts. This power may be obtained by means of an alternating current transformer connected with electric light lines, or any other similar source.

Whenever several pipes in a city are frozen we advise that the water works and electric light companies be asked to join the effort to facilitate the work of thawing. In Madison the price of thawing service pipes is ordinarily between \$5 to \$10 per pipe. Although up to the present time experience has been chiefly confined to service pipes, the method is applicable to street mains in case sufficient power is obtainable. It has been computed that seventy-five horse power is requisite to thaw out within thirty minutes a frozen main six inches in diameter for a distance of 100 feet. For a longer distance corresponding power would be required. It is ordinarily found that the time needed for thawing any length of pipe less than 200 feet does not exceed half an hour after the electricity is applied.

For assistance from the University no other charge will be made than the cost of transportation, subsistence and lodging.

In sending calls for assistance, or information, care should be taken to describe facilities for supplying electric power, and such inquiries should be addressed to Secretary E. F. Riley, Madison, Wis."

## IMPLEMENT WORKS MAY LOCATE HERE

DESIRABLE FACTORY LOOKING FOR LOCATION.

Better Facilities Are Wanted Both In a Banking and Shipping Line—No Bonus Is Sought For—Business Men Are Now Considering the Proposition.

Janesville has an opportunity to secure a factory enterprise that holds strong possibilities.

The concern is now located in the northern part of the state, and is managed by a German and his two sons, all of them practical mechanics. The factory has been in operation for seventeen years and now employs thirty skilled mechanics throughout the year. The output consists of corn planters, corn shellers and small farm machinery made on patents owned by the company.

The reason for a change of location is the need for better facilities. Banking and shipping facilities are both very poor in the present location. It is understood that the concern do not look for bonus or financial inducements, further than that they desire to secure enough money on a long time loan to permit of doubling the capacity of the factory. This loan would be secured by a mortgage on the plant.

The matter has been laid before a number of Janesville business men and steps are likely to be taken to induce the selection of Janesville by the company for its new location.

A REMARKABLE MAN.

LOUIS BETTS, KING OF KASKASKIA ISLAND.

His Farm Was Washed Away Twenty-five Years Ago by a Change in the Mighty Mississippi's Course—He Saw Gen. Lafayette.

Perhaps the most remarkable character in Illinois today is old Louis Betts, an inhabitant of Kaskaskia island. Betts is in the eighty-fourth year of his life, and is spending his latter days in the one habitable room of one of the few tumble-down old houses that form what is left of the historic old village of Kaskaskia.

Louis Betts is the last living individual of a peculiar type well known in the vicinity of Kaskaskia in the early part of the nineteenth century. His mother was a mixture of negro and Indian, while his father was a full-blooded Frenchman. The old man's skin is

almost copper-colored. His hair is combed back from his forehead and falls in little ringlets about his ears, which are as small and neatly molded as some beautiful young woman's. He has a sharp, well-set nose and his lips are thin and now drawn by old age. His sharp, piercing blue eyes blink expressively from his shriveled little face and in no way does he resemble a negro save in his hair. The Indian shows itself in his skin.

Betts speaks French as fluently as he does English. He was born in 1815 and was 10 years old when General Lafayette visited Kaskaskia in 1825. The old man says that he can remember the occasion and is always ready to give an account of the great event. In 1851 Betts, with a party of prospectors, made the trip across the plains in a prairie schooner to the gold fields of California. But Betts came back in a very short while, and he says today that "there wasn't no chance for a poor man out there then."

He has not been off Kaskaskia island for more than twenty-five years. Year after year he has remained in the tumble-down old village and watched the constant efforts of the mighty Mississippi river to completely wash away the historic spot. Betts was at one time wealthy and owned a fertile farm near the junction of the Mississippi and Kaskaskia rivers, but when the former stream decided that her course had been cut out wrong and changed her current to the channel of the Kaskaskia the Betts farm went floating down the river and helped to form the great summer months the old man sits on the river's bank, near the spot formerly occupied by the famous Kaskaskia tavern, and tells stories of events in the bygone days of the old town.

He was one of the members of that remarkable funeral train when, in 1844, during the flood, in the Mississippi valley, the remains of Pierre Menard, the first lieutenant-governor of Illinois, who died in his mansion on the opposite side of the river, were taken across to Kaskaskia in a rowboat.

During the winter the old man sol-

dom leaves his home, and it took much coaxing to get him far enough from the door to take his picture. He was never before photographed and to him it was a novel experience. He wanted one of the pictures and thought it strange that they had to be put through a process before they were perfected.

SCHLEY DECIDES TO WAIT.

Admiral Not to Press His Fight Against Advancement of Sampson.

Washington, Feb. 27.—The understanding among Admiral Schley's friends now is that they will not further press the fight over the question of Admiral Sampson's advancement over Admiral Schley. They will, therefore, agree to let the nominations be confirmed without much, if any more, debate, depending upon future legislation to place Admiral Schley before the country in the position which they think he should occupy.

It is proposed to ask that provision be made for the appointment of two vice-admirals, with the understanding that Schley and Sampson shall be nominated to the two places thus created. Admiral Schley told his senatorial friends that he was willing to trust his fortunes to their care.

American Officials Satisfied.

Havana, Feb. 27.—The Spanish newspapers tell Gomez that they can not greet him as either victor or liberator, because the Americans are the real conquerors and Cuba is not liberated, but they are grateful for his influence in establishing peace and concord, and promise their adhesion in helping him to get rid of the conquerors. American officials are not concerned over these utterances. They are gratified at the sentiment of friendliness among the Cubans which the celebration has developed. They do not misinterpret this as an encouragement to annexation, but they will take advantage of the good feelings to press the Cubans to co-operate in disbanding the troops and resuming peaceful pursuits. The celebration satisfies the mass of the people and prepares them for serious affairs.

An Honest Medicine for La Grippe

George W. Waitt, of South Gardiner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account, but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one 50 cent bottle and the chills, cold and the grip have all left me. I congratulate the manufacturers of an honest medicine." For sale by People's Drug Co., corner Main and Milwaukee streets.

Cincinnati, O., Feb. 27.—A national organization of the union reform party will be made at a national conference of the amalgamated elements here on Wednesday and Thursday of this week. Secretary M. A. Neff of the Ohio committee says there will be over 1,000 delegates present from the different states representing silver republicans, populists, socialist labor party, liberty party and others, especially those favoring direct legislation.

Any person committed to the referendum principle of direct legislation will be admitted to the national conference. There will be a meeting to-night of the national executive committee to select a temporary chairman and make other arrangements for the conference.

Marquette, Mich., Feb. 27.—The Rt. Rev. John Vertin, bishop of the Catholic diocese of Marquette and Sault Ste. Marie, died shortly after 6 o'clock Sunday evening.

SEVEN HURT IN EXPLOSION.

Four Probably Will Die.—Result of Natural Gas Leakage.

Logansport, Ind., Feb. 27.—A natural gas explosion occurred Sunday at noon at Walton, a village in Cass county, near this city, whereby seven persons were injured, four of them, it is feared, fatally. The injured are Daniel Eckton, Mrs. Daniel Eckton, their son, Charles Eckton, aged 20; Jesse Coblenz and his wife and their two daughters, Millie and Nellie, aged 8 and 5 years respectively.

The injuries of Mr. and Mrs. Coblenz, Millie Coblenz and Mrs. Eckton are of such a nature that the physicians say they will not recover.

About noon a strong odor of natural gas was detected in the house and Charles Eckton descended to the cellar to examine the service pipes. He thoughtlessly struck a match and the explosion followed. The house was a story and a half brick and was demolished.

Beef at Beef Camp Shown.

Washington, Feb. 27.—The army board of inquiry has received the report of Maj. J. M. Arrasmith, late commissary of Camp Thomas, Georgia, upon the character of the rations issued at that point. He says: "The 3,900 pounds of beef condemned and destroyed was local beef purchased in Chattanooga. The refrigerated beef was sufficient in quantity and excellent in quality, and the fact that the depot commissary inspected and issued over 5,000,000 pounds of this beef and in a hot climate without losing a pound of it indicates the splendid condition of the beef and the care exercised in handling it. The canned beef and baked beans were very good and showed no signs of fermentation."

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. People's Drug Co.

Sheet-Iron Works Fire.

Springfield, Ill., Feb. 27.—The sheet-iron department of the Springfield boiler works was destroyed by fire about 2 o'clock Sunday morning, entailing a loss on the property of about \$35,000. The company is now working on extensive government contracts, and the fire will delay the work considerably.

PEOPLE WE KNOW.

They Are Janesville People and What They Say Is Of Local Interest.

When an incident like the following occurs right here at home it is bound to carry weight with our readers. So many strange occurrences go the rounds of the press, are published as facts, when the intelligent reader knows they cannot be true, there is no wonder that people become skeptical. On one subject skepticism is rapidly disappearing. This is due to the actual personal experience of our citizens and their public utterances regarding them. The doubter must doubt no more in the face of such evidence as this. The public statement of a reputable citizen living right here at home, one whom you can see any day, leaves no ground for the skeptic to stand on:

Mrs. S. L. Be den of 64 S. River St., says: "During the last two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did any lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the Janesville Co's. drug store and persuaded me to use them. I am very glad I did so for they took right hold and in a wonderful change in my condition. I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions. I have recommended this remedy on several occasions, and will do all that I can to let others know of its merits."

## TO HUMANIZE WAR.

PROF. VON ESMARCH SPEAKS FOR HIS EMPEROR.

Says That War Can Be Carried on Without Great Loss of Life—Believed to Be an Effort to "Scoop" the Russian Emperor.

Prof. Von Esmarch, inventor of "bloodless surgical operation" and uncle of the German emperor by marriage—the married Princess Henrietta of Schleswig—explains in an open letter that the international peace conference called by the czar must necessarily be a failure if it attempts to do away with war. He says that task is hopeless. "Nobody in his right senses will dare expect so much—not within a limited period, at least," he says.

"The czar's endeavors in the interest of eternal peace do honor to his great heart, but there can be no doubt that sooner or later we will have another war on hand, a war with all its horrors, with all the misery that travels inevitably in its wake."

This is regarded in Europe as an attempt, coming indirectly from the kaiser, to discredit the peace conference before hand. William, it will be remembered, had planned to issue a proclamation such as the czar announced. Nicholas got ahead of him.

"But," says Esmarch, "while the peace conference, as such may be barren of results, it may do much to hu-

MANIZE WAR. I have gone through a war and know what it means. I also know what the war of the future will be, for I have studied the new-fangled implements of warfare and am convinced that the number of the wounded will be tremendous. The new small caliber quick-firing rifles will work far more havoc than the physicians and their assistants can possibly attend to. And the worst of it is the physicians themselves will be forced to go within the range of fire.

"In view of this, I appeal to public opinion throughout the world to bring pressure upon the peace conference that is to assemble at St. Petersburg in the spring, to this end. Let the various governments represented there agree on certain measures to humanize war. Let the army leaders of the world enter into a convention to do all possible to alleviate the horrors of war within their own ranks and within the ranks of the enemy.

"Above all it will be necessary to renew and amend the international agreement of 1864, which declared against the use of explosive bullets of less weight than 400 grammes. So far this agreement has been kept religiously by all nations, but it seems to me there is, of late, a tendency to evade it. In India, as well as Egypt, the English used bullets from which the mantle had been removed. Such bullets inflict the most serious wounds. In most cases they cripple the wounded for life.

"Now this is not and cannot be the object of battle. In battle we want to incapacitate the enemy from bearing arms. We want to knock him down and disable him for the time being, but, if possible, this operation should be unaccompanied by unnecessary pain. As civilized persons we have no interest in killing the enemy; we don't want to prevent him from emerging from the hospital sound in limb and general health.

"I have attended the trials with Dum-Dum bullets, mantleless bullets, which Prof. Bruns of Tubigen arranged. He practiced on dead bodies, of course.

"Mantleless bullets fired at a distance of 650 feet worked greater havoc and caused more dangerous wounds than are inflicted by any other instrument of warfare. In all cases the opening made by the bullet leaving the body was extraordinarily large and ragged. Where the bullet passed through muscles it caused a hole as big as a man's fist. Where it went through a bone the bone was shattered into infinitesimal splinters and particles. The bone could not be put together again. A body hit at a distance of from 75 to 150 feet was nearly cut in two at the spot struck. In most cases it was held together only by strips of skin or muscles. Big pieces of flesh were torn away. The softer parts were turned inside out.

"Trials at great distances showed that in all cases the mantleless bullet injures a person worse than the ordinary one. Its explosive tendencies do not cease, even if fired at a distance of 1,600 feet."

How McCarthy Benefited One Man. J. H. McCarthy, the son of Justin McCarthy, who is lecturing in this country on Omar Khayyam, says that after a lecture in Brooklyn one of the hearers thanked him for his exposition of the Persian poet's work and added: "I never before knew the difference between Omar Khayyam and Hunyadi Janos."

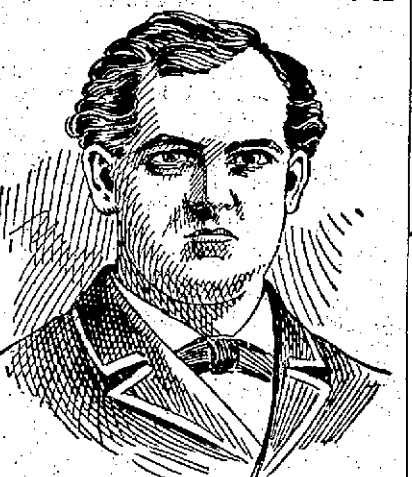

## COMFORTABLE TIP FOR MEN.

Why a New Orleans Bachelor Nails His Slippers Fast.

"Up in my den," said a New Orleans bachelor who lives in a couple of quaintly furnished rooms in a business block downtown, according to the New Orleans Times-Democrat, "between the fireplace and the first bookcase on the left, you will find two large slippers nailed to the wall, some four feet above the wainscoting. The heels of the slippers are quite close together, the toes spread slightly outward, and, being made of brightly flowered druggist, they look not unlike two enormous particolored beetles, clinging to the wall with folded wings. They are not, however, intended as ornaments, but have a very homely and practical purpose. When I retreat to my den at night, take down the book that suits my mood, get into a comfortable, ragged old jacket, turn the lamp just right and light my pipe—when I have performed these preliminary ceremonies I place a chair directly in front of the slippers, insert my feet in their depths and lean back with the blissful consciousness that I can't possibly tip over and break my neck. I am anchored, so to speak, to the wall, and the light is so arranged as to make the position the best possible one for reading. My friends claim that the habit is pulling out my legs to an abnormal length, but I don't let that worry me. I'm thinking of having the scheme copyrighted."

## TEXAS' NEW SENATOR.

Ex-Gov. Culbertson of Texas, who was recently elected without opposition to succeed Hon. Roger Q. Mills in the senate of the United States, deservedly wears the high honor which his fellow citizens have conferred upon him. In the gubernatorial chair of his native state he distinguished himself by reason of his marked abilities, despite the fact that he was one of the youngest men who had ever occupied that exalted position. In the democratic ranks of Texas he has figured with prominence for years. On account of the fine intellectual equipment which he possesses, Senator-elect Culbertson will feel perfectly at home in that body whose counsels he will en-

Fire Destroys Muncie Hotel. Muncie, Ind., Feb. 27.—At 2 o'clock Sunday morning the Roumanian hotel, owned by James Gregor, was destroyed by fire, and several of the thirty-two boarders were severely burned, the condition of Michael Plescher being so serious that he cannot recover. All day Sunday the debris was searched for three men who are missing. It was at first reported that twelve men had perished in the old fire trap, but all but three have been accounted for. They are foreigners who recently came here and whose names cannot be secured.

Moravia Many Days Overdue. Boston, Mass., Feb. 27.—The German steamship Moravia, which sailed from Falmouth, England, for Boston, Jan. 25, has not been heard from, and it is feared she has foundered. It is not known here whether the Moravia carried any passengers, but as she has accommodations for about fifty of the steerage class, it is thought that nearly that number were on board when she left Hamburg. Her cargo consisted of general merchandise, and is valued at \$500,000.

# A LIST OF MONEY SAVERS.

We are cleaning out every line of goods in our stock where the packages are soiled or slightly damaged in appearance. Prices are reduced to cost and less on them all to hurry the good work along. We have sold great quantities of these goods and will keep our bargain counter filled as long as this class of stock lasts. The qualities of the goods, remember, are just as good as the best; it is merely the appearance of the package that leads us to cut prices.
